CHAIRMAN & MD'S ADDRESS

01

IRSHAD ALAM
Managing Director

“Our mandate is simple: Combine nature's premium harvest with cutting-edge hygiene technologies to create products trusted globally.”

Welcome to SADAF FOOD PROCESSORS PRIVATE LIMITED (SFPPL).

Since our incorporation in 2012, our guiding philosophy has been to bridge the gap between India's rich local harvests and global standards of hygiene and presentation. Muzaffarpur, Bihar, stands at the absolute epicenter of the world's finest Litchi and Makhana yield. Yet, for decades, value retention at the farm-gate was low due to processing and cold chain constraints.

We established SFPPL to revolutionize this space. By upgrading our processing systems to 100% optical-sorter cleaning, automated sizing, and nitrogen-sealed moisture barriers, we have unlocked products that maintain shelf stability, nutritional integrity, and gourmet flavors without chemical preservatives.

As we scale our operations across Litchis, Makhanas, and advanced aquaculture fish ponds, we remain deeply committed to our farmers. Through direct contract procurement and localized training, we ensure that every pack of SFPPL products bought by retail, institutional, or export clients directly uplifts rural agro-economies in Bihar.

We invite our investors, supply partners, and customers to join us as we embark on our next phase of national expansion and global footprint integration.

Sincerely,

Irshad Alam
Managing Director, SFPPL

COMPANY OVERVIEW & LEGALITIES

03

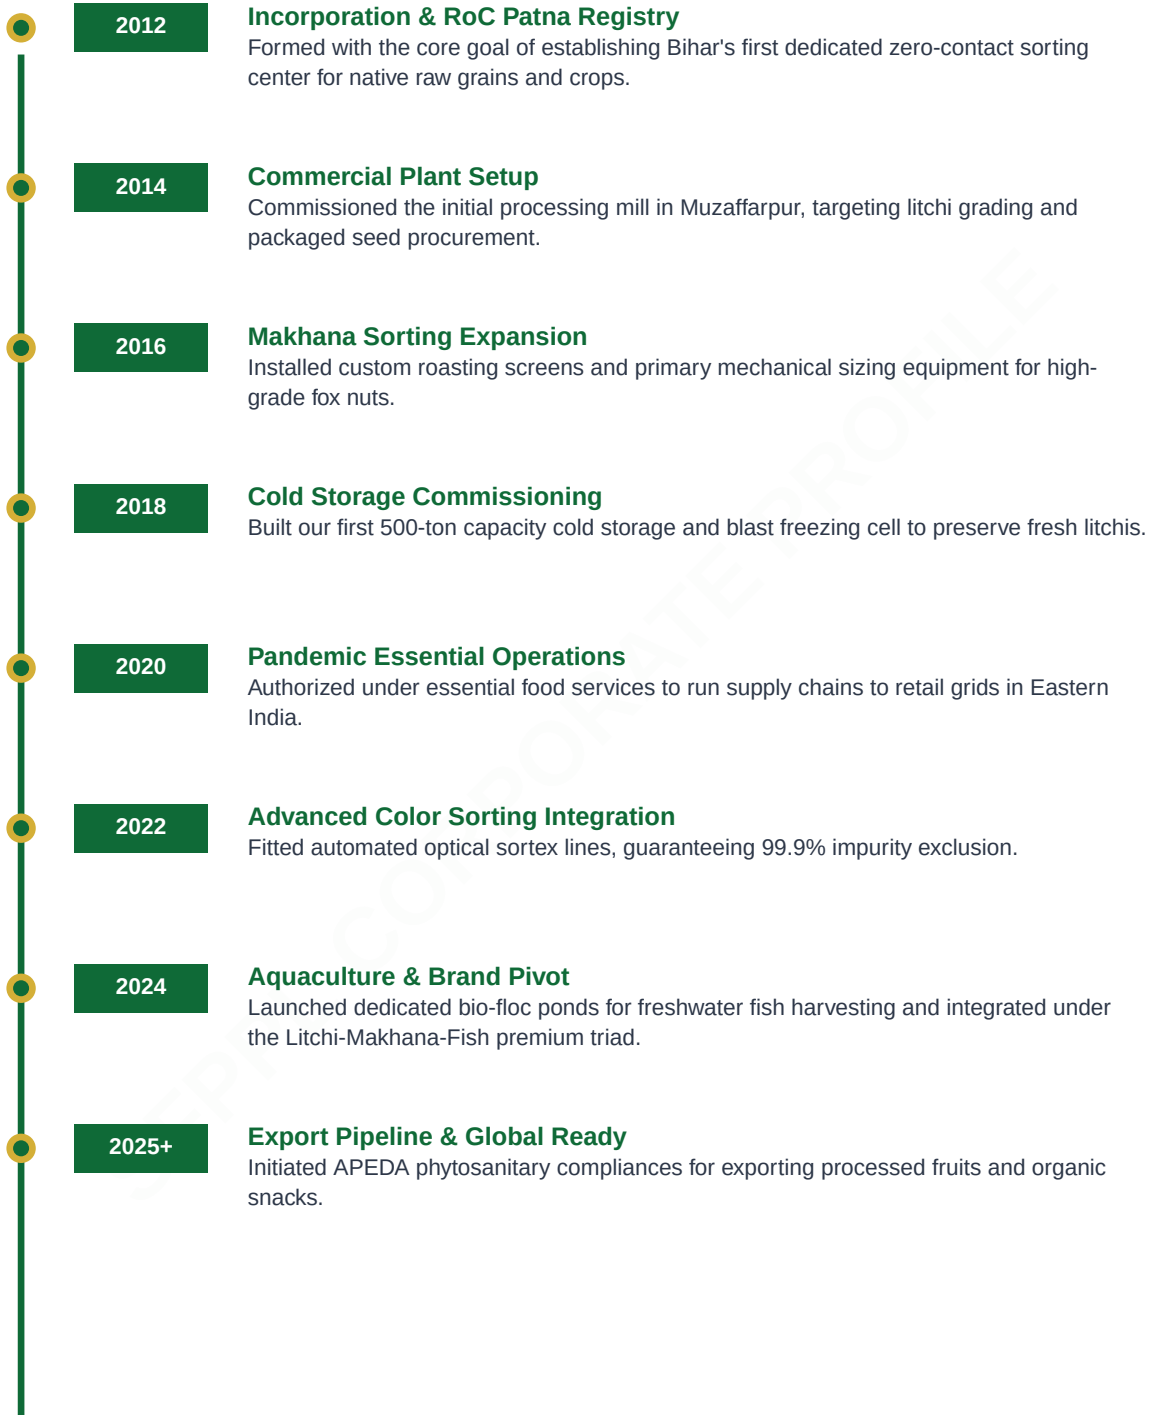

SADAF FOOD PROCESSORS PRIVATE LIMITED (SFPPL) was incorporated under the Companies Act in Patna, Bihar, in December 2012. The enterprise operates as a multi-product agro-processing hub, dealing in highly specialized regional harvests like Shahi Litchis, handpicked local Makhanas, and pond-fresh freshwater fish varieties. The company connects local farmers with global supply chains by using industrial-grade clean sorting and packaging equipment.

Corporate Parameter	Official Registered Details
Registered Entity Name	SADAF FOOD PROCESSORS PRIVATE LIMITED (SFPPL)

Export Approvals	APEDA Registration Code: 2025XXXXXX

STRATEGIC MILESTONES & HISTORY

04

Our growth journey from a localized processing startup to an integrated agro-export powerhouse.

CORPORATE VISION & ROADMAP

05

“ VISION STATEMENT

To stand as India's most trusted, technology-driven agro-processing standardizer, converting local regional strengths into global premium brands, while securing structural prosperity for our farmer bases.

Agricultural Upgradation

Transitioning traditional orchards and ponds in Bihar into highly standardized, traceable units with crop mapping.

Global-Grade Hygiene

Setting sorting benchmarks that match FDA, HACCP, and EU guidelines to make products exports-ready without chemical inputs.

Farmer Economic Upliftment

Bypassing middlemen loops via direct farm-gate and pond-gate purchase contracts, assuring steady margins to farmers.

CORPORATE MISSION & CORE FOCUS

06

Our operational mission is broken down into five core measurable targets designed to guide daily plant behavior and long-term marketing decisions:

- 01

Zero Compromise Cleanliness
Implementing comprehensive mechanical washing, color sorting, metal detection, and nitrogen flushing on every batch of litchis and makhanas to guarantee complete sanitation.
- 02

Traceable Sourcing Ecology
Maintaining digital records of seed supplies, pond inputs, harvest dates, and logistics temperatures for 100% downstream transparency for distributors and retailers.
- 03

Empowering Rural Livelihoods
Generating secure manufacturing, processing, and agricultural extension jobs in Muzaffarpur, with target inclusions for local youth and women.
- 04

Eco-Friendly Operations
Using clean solar energy, biological waste-to-feed conversion, and biodegradable or recyclable packaging solutions to keep carbon footprints low.
- 05

Customer & Partner Delight
Providing scalable delivery grids, transparent pricing metrics, and customized co-packing specifications to retail chains, institutional kitchens, and export brokers.

OUR CORE VALUES & BELIEFS

07

At SFPPL, we measure our success not just by the margins we post, but by how we treat our farmers, our team, and our customers. We live by these eight core operational values:

Integrity First
Doing the right thing even when no one is looking. Complete honesty in crop pricing and weight measurement.

Uncompromising Quality
Consistently delivering products that surpass national (FSSAI) and global certifications.

Continuous Innovation
Investing constantly in processing technology, dehydration methods, and shelf-life research.

Radical Transparency
Open supply lines with digital tracking of crop batches, certifications, and testing parameters.

Ecological Sustainability
Striving for zero-waste mills, solar power utilization, and circular feed systems in aquaculture.

Collaborative Teamwork
Fostering a safe, respectful workspace that rewards hard work, ownership, and learning.

Social Responsibility
Supporting local Bihar communities with education support, fair pricing, and training programs.

Customer Centricity
Tailoring batches, sizes, and shipping parameters to match our distributors' specific needs.

BOARD OF DIRECTORS & LEADERSHIP

08

SFPPL's strategic direction is managed by experienced leaders dedicated to quality, infrastructure and growth.

IRSHAD ALAM
Managing Director

Mr. Irshad Alam is the visionary behind SFPPL, establishing the company in 2012. With over 15 years of experience in food processing infrastructure, machinery sourcing, and cold chain setup, he oversees all factory development, raw procurement policies, and technology upgrades in Muzaffarpur. His commitment to farmer integration has driven SFPPL's direct contract procurement programs.

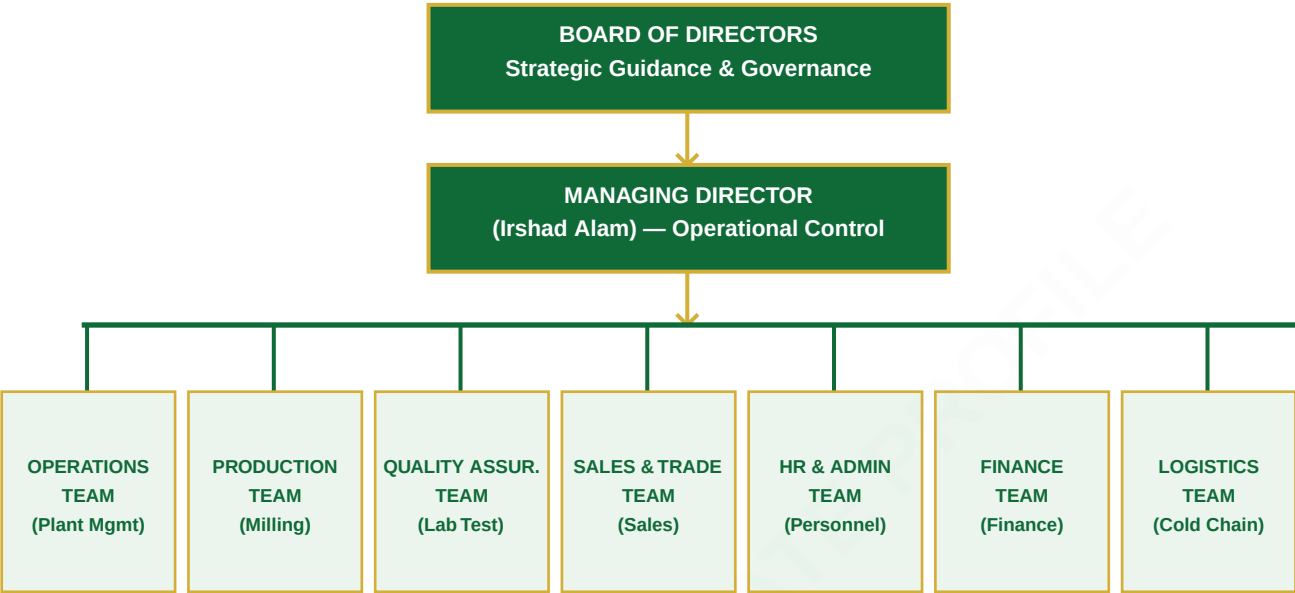

ZINAT JAHAN
Director & CFO

Mrs. Zinat Jahan co-leads SFPPL with a strong background in corporate finance, resource allocation, and quality compliance. She manages SFPPL's commercial operations, auditor relations, sales distributions, and export negotiations. Under her leadership, the company established digital sales platforms and obtained central FSSAI and ISO 22000 quality systems standards.

ORGANIZATION STRUCTURE

09

SFPPL operates under a structured corporate governance layout to ensure complete accountability, prompt processing, and strict quality control at every phase:

Functional Commitments:

- Production & Operations: Ensures daily processing bounds of 50 MT are met under sanitized parameters.
- Quality Assurance: Operates the testing lab, approving batches only after chemical and moisture scans.
- Sales & Logistics: Manages temperature-controlled dispatch vehicles and coordinates supply nodes.
- Finance & Admin: Monitors raw crop payments, farmer deposits, and complies with auditing files.

MUZAFFARPUR FACTORY INFRASTRUCTURE

10

SFPPL operates a state-of-the-art agricultural and fruit processing plant spanning 25,000 square feet in Katara, Muzaffarpur. Located directly in the crop zone, the facility reduces transport delay from harvest to processing down to under 4 hours, ensuring extreme freshness retention.

Infrastructure Metrics

- Total Area: 25,000 Sq. Ft.
- Daily Milling Bound: 50 Metric Tons
- Cold Storage Containment: 500 Tons
- Optical Sortex Line: 100% Automated
- Nitrogen Generator Plant: Integrated
- Standby Power Generator: 150 kVA

Machinery Profile

- Optical Color Sorter: Buhler Sortex
- Automatic De-hullers: Pneumatic Type
- Mechanical Fruit Grader: Rotational
- Pre-cooler and Blast Freezers: Carrier
- Nitrogen Flush Sealer: Multi-lane Form
- Continuous Heat Dryer: Temp Controlled

Warehouse Climate Zones

- Zone A (Dry Warehouse): Dedicated to processed Makhana in moisture-proof, humidity-controlled spaces. Retains crispness.
- Zone B (Cold Storage Rooms): Kept at 2°C to 4°C with controlled relative humidity. Retains fresh sweet aroma of Shahi Litchis.
- Zone C (Deep Freeze Containment): Maintained at -18°C. Dedicated to processed freshwater fish fillets.
- Zone D (Packaging Cell): Class 100,000 clean air positive pressure zone for packaging lines.

PRODUCT CATEGORIES OVERVIEW

11

SFPPL specializes in three core premium domains native to the Bihar region. By concentrating strictly on these select categories, we maintain deep expertise and market leadership in product quality.

1. Premium Shahi Litchis

Muzaffarpur's famous Shahi Litchi, known for its sweet, juicy pulp and signature aroma. Processed under blast cooling to prevent browning.

Products: Fresh Shahi Litchi, Frozen Litchi Pulp, Dehydrated Litchi Seeds

2. Organic Popped Makhanas (Fox Nuts)

Highly nutritious popping grains sourced from clean freshwater wetlands. Cleaned using optical sorting to filter out mud particles.

Products: Grade-A Plain Makhana, Roasted Himalayan Pink Salt, Spiced Roasted Makhana

3. Aquaculture Freshwater Fish

Harvested daily from our scientifically managed bio-floc and earthen ponds. Transmitted immediately in sterile ice packs.

Products: Fresh Rohu Fish, Fresh Katla Fish, Premium Freshwater Prawns

PORTFOLIO: PREMIUM SHAHI LITCHIS

12

SFPPL processes Muzaffarpur's GI-tagged Shahi Litchis into consumer and industrial formats:

Fresh Shahi Litchi (Gourmet Grade)

Handpicked at dawn, graded for size and skin color, washed in cold sanitizers, and packed in ventilated micro-perforated boxes to keep fresh.

Shelf Life: 7-9 Days in Cold Chain | Packaging: 1kg & 5kg Cartons | Storage: 2°C

Frozen Shahi Litchi Pulp (Pasteurized)

100% natural pulp extracted from selected sweet litchis. Processed under zero contact, pasteurized, and frozen immediately. No added sugar.

Shelf Life: 12 Months Frozen | Packaging: 5kg Jerry Cans & 20kg Drums | Storage

Dehydrated Litchi / Litchi Nuts

Slow-dehydrated whole litchis in specialized dryers. Retains sweet flavor in a chewy texture, similar to raisins. Great export product.

Shelf Life: 6 Months | Packaging: 250g & 500g Vacuum Pouch | Storage: Dry Cool Place

Average Nutritional Value (per 100g Fresh Shahi Litchi Pulp):

Energy: 66 kcal | Carbohydrates: 16.5g | Dietary Fiber: 1.3g | Vitamin C: 71.5 mg (119% DV) | Potassium: 171 mg

PORTFOLIO: PREMIUM ORGANIC MAKHANA

13

Our Makhanas are sourced directly from wetlands, sorted by diameter, roasted and popped cleanly:

Plain Premium Makhana (Grade-A 6+ Suta)

Large size popped white fox nuts, cleaned of hard seed coats, graded for high fluffiness. Ideal for home roasting and raw healthy snacks.

Shelf Life: 9 Months | Packaging: 250g, 500g Pouches & Bulk 10kg Sacks | Storage

Spiced Roasted Makhana (Native Ghee & Herbs)

Roasted in premium local cow ghee and coated with natural spices (black pepper, turmeric, mint). 100% trans-fat free healthy snack.

Shelf Life: 6 Months | Packaging: 80g & 150g Nitrogen Sealed Bags | Storage: Dry

Pink Salt Roasted Makhana

Gently roasted popped kernels seasoned lightly with pure Himalayan Pink Salt. Low sodium snack, rich in magnesium and potassium.

Shelf Life: 6 Months | Packaging: 80g & 150g Nitrogen Sealed Bags | Storage: Dry

SFPPL QUALITY

PREMIUM CROP STANDARDS

Average Nutritional Value (per 100g Grade-A Popped Makhana):

Energy: 347 kcal | Protein: 9.7g (High Bio-availability) | Carbohydrates: 77g | Calcium: 60 mg | Iron: 1.4 mg | Fat: 0.1g

PORTFOLIO: AQUACULTURE FRESH FISH

14

Sourced daily from our bio-floc aquaculture ponds and packed in crushed clean ice within 2 hours of harvest:

Fresh Freshwater Rohu (Labeo rohita)

A local favorite freshwater fish. Graded between 1.5kg to 2.5kg for optimum flavor. Cleaned, scaled, and sent whole or cut as requested.

Shelf Life: 3-4 Days in Crushed Ice (0-2°C) | Packaging: Insulated Poly-crates | Storage: Under Ice

Fresh Freshwater Katla (Catla catla)

Harvested from clear ponds, fed on organic feed. Excellent protein source, known for large flakes and broad texture.

Shelf Life: 3-4 Days in Crushed Ice (0-2°C) | Packaging: Insulated Poly-crates | Storage: Under Ice

Premium Freshwater Prawns

Giant freshwater prawns (Macrobrachium rosenbergii), head-on or head-off, cleaned and blast chilled. Firm sweet tail meat.

Shelf Life: 5 Days iced, 12 months frozen | Packaging: 500g trays & bulk crates | Storage: -18°C (Frozen)

Average Nutritional Value (per 100g Fresh Rohu Fillet):

Energy: 97 kcal | Protein: 19.7g | Fat: 1.4g (Rich in Omega-3 Fatty Acids) | Phosphorus: 210 mg | Sodium: 60 mg

PRODUCT COMPARISON & SPECIFICATIONS

15

Below is a master matrix showing shipping weights, packaging configurations, moisture limits and target export destinations.

Product Name	Pack Configuration	Moisture Limit	Shipping Grade	Target Market
Fresh Shahi Litchi	1kg, 5kg Corrugated Box	<85% RH	Gourmet Air Freight	National Retail, UAE
Frozen Litchi Pulp	5kg Jerry Can, 20kg Drum	N/A	Aseptic Cold Chain	Ice Cream & Juice Ind.
Dehydrated Litchi	250g, 500g Vacuum Pouch	<12%	Dry Cargo Container	Export Markets, Nepal
Plain Premium Makhana	250g Pouch, 10kg Sack	<7%	High Fluffiness Grade A	Distributors, Wholesalers
Spiced/Pink Salt Makh.	80g, 150g Nitro Pouch	<4%	Seasoned Retail Ready	Supermarkets, Retail
Fresh Rohu Fish	Whole/Cut in Insulated Box	N/A	Chilled Pond-gate Fresh	Fish Markets, Catering
Fresh Katla Fish	Whole/Cut in Insulated Box	N/A	Chilled Pond-gate Fresh	Fish Markets, Catering
Freshwater Prawns	500g Trays, Insulated Crate	N/A	IQF Blast Frozen Head-on	Fine Dine, Seafood Export

Important Operational Notes for Wholesalers & Distributors:

- Cold Chain Compliance: Chilled products (fresh litchi & fish) require constant temperature logs between 0°C and 4°C. Delivery vehicles without refrigerated systems will be rejected at the buyer gates.
- Makhana Storage: Popped Makhanas are highly hygroscopic (absorb moisture). Store off the ground away from walls in dry warehouses with less than 60% ambient humidity.
- Customized Co-packing: SFPPL provides white-label (private brand) packaging for bulk retail chains. Minimum order volumes (MOVs) apply for custom gravure film printing.

QUALITY CONTROL & TESTING

16

At SFPPL, quality control is a structured process implemented at every stage of the manufacturing timeline. We enforce a zero-human-contact process to avoid bacteriological contamination.

Stage 1: Farm-Gate Sorting	Inspection of raw litchis, pond fish, and raw makhana seeds immediately at harvest. Rejection of bruised fruits, small sizes, or unhealthy catches.
Stage 2: Mechanical Washing	Fruits and makhanas undergo multi-stage ozonated water washing to eliminate mud, pathogens, and surface pesticide residues.
Stage 3: Optical Sorter Sorting	Makhana kernels pass through computerized optical color sorters to detect and eject dark shell fragments with 99.9% precision.
Stage 4: Multi-Lane Sizing	Grading products by physical dimensions to ensure consistency within each packaging tier.
Stage 5: Packaging & Metal Detection	Nitrogen sealing protects products against moisture. Finished bags pass through an inline conveyor metal detector to guarantee zero metal shards.
Stage 6: Laboratory Batch Approval	Our in-house QA lab runs moisture testing, visual consistency checks, and micro-biology tests. Batches receive an official release code before dispatch.

CERTIFICATIONS & COMPLIANCE

17

SFPPL operations are certified under standard food safety frameworks, making our products eligible for corporate retailers and export markets:

OK	FSSAI Central Licence Licensed under the Food Safety and Standards Authority of India (Licence No. 104210000XXXX). Governs processing, cold storage, and export divisions. Issuing Authority: Govt of India
OK	ISO 22000:2018 Standards Certified Food Safety Management System covering the receiving, processing, packing, and dispatch of fresh and dry agricultural foods. Issuing Authority: Intertek Certification
OK	HACCP Codex Compliance Hazard Analysis Critical Control Point system implemented across all processing lines. Monitors physical, chemical, and biological hazards. Issuing Authority: Global Certification Services
OK	APEDA Registration Registered under the Agricultural and Processed Food Products Export Development Authority. Authorizes SFPPL for international trade routes. Issuing Authority: Ministry of Commerce, India

RESEARCH, DEVELOPMENT & PACKAGING

18

SFPPL invests 3.5% of its annual revenue in product research, packaging testing, and shelf-life optimization. Our R&D division works closely with regional agriculture institutes to improve crop preservation.

Innovation Focus Areas

- Litchi Dehydration: Standardizing drying methods to preserve color and nutrients.
- Moisture Barrier Films: Testing multi-layer polymers to extend Makhana crispness.
- Pond Water Optimization: Using bio-floc setups to grow fish size and yields.
- Natural Preservatives: Studying herb extracts to delay fresh litchi browning.

Recent Tech Adoptions

- Nitrogen Flush Systems: Keeps oxygen below 1% inside packaging to prevent rancidity.
- Optical Sortex: Automated cameras scan 150 kernels per second, ejecting defects.
- Blast Chillers: Reduces litchi core temperature to 2°C in under 30 minutes.
- Digital Water Testing: Monitors pH, ammonia, and oxygen levels in fish ponds in real time.

Product Roadmap (2026-2027)

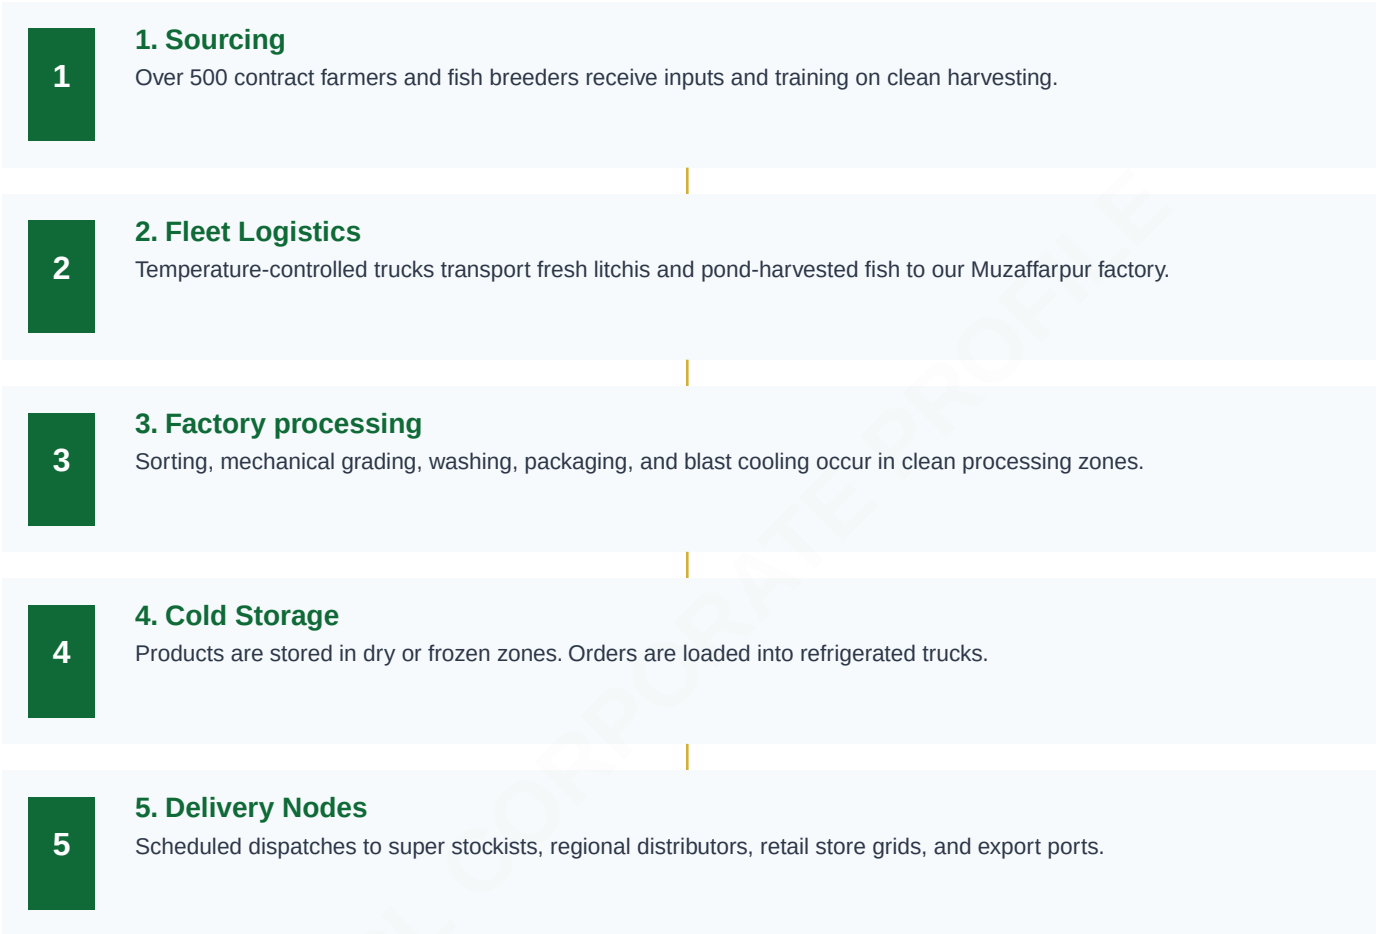

1. Flavored Makhana Sticks: Low calorie, high fiber snacks made from ground Makhana and organic starch.
2. Litchi Honey: Pure honey harvested from bee boxes kept directly in our organic litchi orchards during flowering season.
3. Ready-to-Cook Fish Fillets: Frozen Rohu and Katla fillets, marinated in regional spices, packed in vacuum skin packs for retail grids.

SUPPLY CHAIN & COLD LOGISTICS

19

We operate an integrated supply chain that links primary growers in Bihar directly with urban markets. This model ensures farm-gate traceability and stable supply schedules.

MARKET PRESENCE & EXPANSION

20

SFPPL has built a strong market presence across Eastern and Northern India, and is expanding into international export territories. Our regional distribution network connects over 300 active distributors.

Domestic States & Territories Served

- Bihar (Home)**

Complete coverage: Patna, Muzaffarpur, Bhagalpur, Darbhanga. Supply of fresh fish, litchi, and makhana.
- West Bengal & Kolkata**

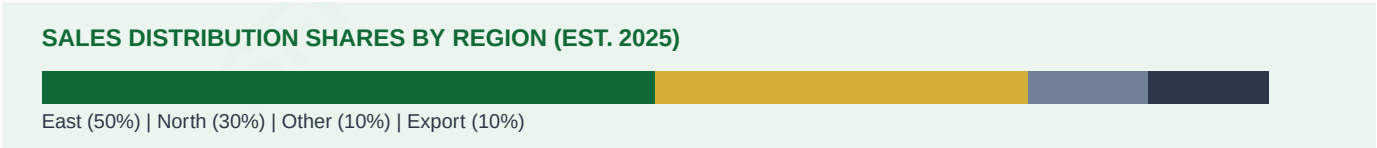

Major consumer market for freshwater fish and organic makhana pouches. Daily chilled dispatches.
- Uttar Pradesh & Lucknow**

Retail packaging distribution of plain and flavored roasted makhana across supermarket chains.
- Delhi NCR Grid**

Premium gourmet stores, e-commerce fulfillment hubs, and direct institutional catering clients.

Export Growth Markets

- Nepal: Direct overland exports of processed litchi pulp and plain makhana bags via border customs.
- UAE & Gulf Countries: Air shipping fresh Shahi Litchis in cold crates during seasonal windows. Regular exports of roasted makhana snack packs.
- USA & European Union (Planned 2026-27): Developing agreements with health snack distributors for organic popped makhana shipments.

CSR & RURAL DEVELOPMENT

21

As a company rooted in Muzaffarpur's agricultural landscape, corporate social responsibility is part of our business model. We run initiatives to improve livelihoods and support communities across Bihar.

1. Farmer Training Seminars

We run free workshops for growers in Muzaffarpur, teaching pest management, compost preparation, and post-harvest handling. Promotes chemical-free farming.

Impact: Over 1,200 farmers certified since 2020.
2. Free Input Distribution Program

Providing high-yield, disease-resistant litchi saplings and premium fish fingerlings at zero cost to small-scale farmers to boost regional yields.

Impact: 15,000+ saplings distributed in 2024.
3. Mid-Day Meals & Community Kitchens

Supporting regional school programs with nutritious makhana-based food supplements and sponsoring free meal distribution points during local floods.

Impact: Sponsoring food aid for 5 local primary schools.
4. Rural Women Cooperative Support

Assisting local self-help groups (SHGs) by purchasing handpicked makhana kernels, ensuring steady off-season incomes for women workers.

Impact: Supporting independent income streams for 250+ women.

SUSTAINABILITY & ECO-OPERATIONS

22

SFPPL is committed to clean, eco-friendly processing. We aim to reach net-zero carbon operations by 2030 by reducing waste and using renewable energy.

Solar Energy Integration

We installed a 50kW rooftop solar photovoltaic grid at our main Muzaffarpur plant. This solar setup satisfies over 45% of our daily power requirements, reducing grid emissions.

Emission Savings: ~38 Tons of CO2 per year

Zero Liquid Discharge (ZLD)

Our plant treats and recycles all wastewater from fish processing and fruit washing. The treated water is recycled to irrigate our organic litchi orchards and feed aquaculture ponds.

Water Recycled: 25,000 Liters daily

Circular Waste Management

Fruit peelings and makhana seed coats are processed into organic compost or fish feed. We convert manufacturing waste into raw inputs for agricultural cooperatives.

Waste Diverted from Landfills: 92%

Bio-derived Packaging Solutions

We are moving our makhana and processed fruit packaging from multi-layer plastic pouches to biodegradable film structures to reduce plastic waste.

Target: 100% recyclable packaging by 2028

CORPORATE ACHIEVEMENTS & AWARDS

23

Over the past decade, SFPPL has received several industry awards, government commendations, and performance milestones:

- 2019

Bihar Agro-Enterprise Commendation

Conferred by: Department of Agriculture, Govt. of Bihar

Awarded for setting up advanced sorting facilities in Muzaffarpur and training local growers.
- 2021

Fastest Growing Food Processor (Eastern)

Conferred by: Federation of Indian Food Chambers (FIFC)

Recognized for managing essential supply chains during the pandemic and maintaining quality standards.
- 2023

Sustainable Agro-Supply Chain Innovator Award

Conferred by: Assoc. Chambers of Commerce & Industry of India (ASSOCHAM)

Given in recognition of our circular farming model, water recycling, and solar energy projects.
- 2025

Certified Export Performance Award

Conferred by: Agricultural Trade Association

Commended for export volumes of high-grade litchi pulp and organic makhana products to Gulf markets.
- CAGR Growth Metric: 18.2% Revenue Growth Over Last 5 Years (2020-2025)**

Steady capital investment, technology upgrades, and customer growth drive our financial success.

MAJOR CLIENTS & BUSINESS PARTNERS

24

SFPPL works with retail chains, food manufacturers, export brokers, and regional distributors. We build long-term relationships based on consistent quality and delivery schedules.

- Domestic Supermarket Chains & Retail**

We supply plain and flavored roasted makhana pouches to major supermarket networks in metro areas, offering retail-ready packaging and shelf compliance.

Partners: Reliance Retail, BigBasket, Spencer's Retail, Zepto (Fulfillment Hubs)
- Industrial Food Manufacturers (B2B)**

We supply bulk frozen pasteurized litchi pulp to fruit juice processors, ice cream manufacturers, and dairy brands. Processed without added sugar.

Partners: Kissan, Mother Dairy, ITC Food Division, Dabur India
- Institutional Catering & Hotels (Horeca)**

Sourcing whole scaled fresh Rohu/Katla fish and bulk organic makhanas for luxury hotels, corporate catering, and large restaurant networks.

Partners: Taj Group Hotels (Kolkata/Patna), Sodexo Facilities, Compass Group
- Global Export Brokers**

SFPPL works with export agents to ship GI-tagged Shahi Litchis and premium popped makhana bags to markets in the Middle East and Nepal.

Partners: Al-Maya Group (UAE), Nepal Agro-Import Brokers, US Foods (Snacks division)

WHY PARTNER WITH SFPPL

25

SFPPL is a preferred partner for retail chains, distributors, and exporters looking to secure premium crops:

12+ Years of Experience

Established in 2012, we understand regional crop cycles, local farming challenges, and processing requirements needed to maintain quality.

Direct Sourcing Orchards

Our plant is located in Muzaffarpur, Bihar—the litchi and makhana capital. Sourcing directly from farms reduces transport delays.

Advanced Tech Sorters

We use mechanical washing systems and optical color sorters to ensure 99.9% clean, standardized products with zero metal risk.

Controlled Supply Chain

We manage cold storage facilities and refrigerated trucks to ensure fresh fish and juicy fruits reach markets in optimal condition.

Certified Safety Matrix

Certified under FSSAI central licenses, ISO 22000, and HACCP frameworks, meeting export guidelines and compliance parameters.

Fair Trade farmer Sourcing

We support our contract growers with fair pricing and seeds, ensuring stable crop supplies and community development.

TESTIMONIALS & FEEDBACK

26

Here is feedback from our distribution leads, catering clients, and international export partners:

"SFPPL has been our primary source for premium graded makhana since 2018. Their moisture-proof bags and fast delivery schedules have allowed us to double our retail presence across Eastern India. Their sorting quality is excellent, with zero sand or shell impurities."

Rajesh Kumar

Northeast Distribution Lead, Patna

"We require clean, fresh fish deliveries for our corporate catering services. SFPPL's chilled transport logistics deliver pond-fresh fish under ice, maintaining high standards. Their cold chain support is outstanding."

Ananya Mishra

Corporate Food Services Director, Kolkata

"We import processed fruit pulp for juice and dairy manufacturers in the Gulf region. SFPPL's FSSAI and ISO compliances give us confidence. Their frozen shahi litchi pulp retains its natural flavor and sweetness with no chemical additives."

David Miller

Purchase Partner, Global Agro Trade, UAE

FUTURE EXPANSION ROADMAP (2030)

27

SFPPL is prepared for its next phase of growth. We are investing in plant automation, expanding our aquaculture ponds, and launching exports to USA and UK markets.

Phase 1 (2026): Production Line Automation

- Install a new automated packaging and weighing line to double packing speeds.
- Add a 150-ton cold storage unit at our Muzaffarpur plant.
- Launch our Litchi Honey line in retail supermarkets.

Phase 2 (2027-2028): Aquaculture & Pond Scaling

- Expand our bio-floc aquaculture ponds to cover 50 acres.
- Launch a freezing and filleting line for fresh fish exports.
- Transition all product packaging to 100% biodegradable materials.

Phase 3 (2029-2030): Global Export Markets

- Obtain US FDA and EU phytosanitary approvals for organic snacks.
- Build distribution grids in the US, UK, and European Union.
- Complete solar expansion at our plants to reach 100% self-reliance.

CAREER OPPORTUNITIES & WORKPLACE

28

At SFPPL, we build a progressive, safe, and learning-focused workplace. We offer job opportunities in food technology, supply chain management, sales operations, and warehouse administration.

Training & Development

We run regular training programs on food safety (HACCP), machinery operation, and inventory management for all workers.

Fair Wages & Health Care

Providing fair salaries and health insurance programs to ensure family welfare and workplace satisfaction.

Clean & Safe Work Environment

Modern, positive-pressure packaging cells with strict safety protocols, including mask, glove, and apron mandates.

Career Growth Paths

Promoting from within. Floor operators can grow into line managers, and regional executives into division leads.

Our Hiring Process:

1. CV Review " 2. Technical Call " 3. Plant Visit & Interview " 4. Offer Letter
